

## EPS KOREA ADVISORY

All EPS Korea applicants are advised on the following:

- I. **New EPS KLT Scoring System.** A new EPS KLT scoring system was implemented by the Ministry of Labor of Korea and the International Korean Language Foundation (IKLF) effective on the 5<sup>th</sup> EPS KLT conducted last 6 May 2007..

### ***Impact / Effect of the application of the new scoring system.***

1. **Scores and Application**

- a. Examinees who get overall correct scores of **120+ and without a score lower than 40 in either of the tests** are **QUALIFIED IN ALL INDUSTRIES**: Manufacturing and Service Industry (Warehousing for Refrigeration and Freezing; Collection and Sale of Recyclable Materials); Agriculture, Livestock, Fisheries, and Construction.
- b. Examinees who get overall correct scores of **60-119**, regardless of scores lower than 40 in either of the tests are **QUALIFIED IN 4 INDUSTRIES ONLY**: Agriculture, Livestock, Fisheries, and Construction.

- II. **Medical Examination.** Medical examination shall be conducted **immediately after passing the Korean Language Test (KLT)** by medical clinics duly accredited by the Department of Health (DOH) to conduct medical tests for OFWs. For this purpose, POEA shall issue an appropriate document to KLT Passers to be presented to medical clinics prior to the conduct of medical examination.

Except for 're-medical' for applicants whose previous medical results have expired, medical examinations conducted prior to the official date of the release of KLT results will not be honored. Applicants and medical clinics are, therefore, strictly advised to observe the prescribed period and POEA clearance for medical examination to avoid unnecessary inconvenience.

- III. **Choice of Medical Clinics.** Applicants shall decide and choose their medical clinic for their medical examination, provided that preferred clinics are accredited by the Department of Health to conduct medical tests for OFWs.

For general information and guidance.
